INK JET PRINTER

EPSON STYLUS™ C65

EPSON

Featuring the revolutionary DURABrite™ Ink, you get to enjoy absolute durability thanks to its water and light resistant properties. The patented technology behind this ink promises superb quality even on plain paper. That's where you save money! EPSON Stylus™ C65 uses independent ink cartridge system that ups the economy factor by enabling you to replace only the INKdividual™ cartridge that has run out.

Complementing our various state-of-the-art ink technologies are paper media that were rigorously tested for excellent print quality before addition to EPSON media range. Choose from our wide array of papers and be assured of prints that are both beautiful and long-lasting.

**EPSON
DURABrite™
Photo Paper**

C13S041736
4R size (10x15cm),
30 sheets

A heavy-weight paper, EPSON DURABrite™ Photo Paper is designed to work best with DURABrite™ Ink to achieve superior photo quality and durability. No more worries when it comes to water spillage or gas contaminants damaging your treasured photos. Know that you can now do more, with DURABrite™ printing.

PRINTER TYPE	On-demand ink jet (piezoelectric)
PRINTING METHOD	90 nozzles (Black), 29 X 3 nozzles (Cyan, Magenta, Yellow)
NOZZLE CONFIGURATION	Bi-directional with logic seeking
PRINT DIRECTION	
PRINT QUALITY	5760 X 1440 optimised dpi with Variable Sized Droplet Technology
MAXIMUM RESOLUTION	4 pl
MINIMUM INK DROPLET SIZE	
PRINT SPEED	
BLACK TEXT (MEMO) A4	Approx. 17.0ppm (Draft) *1
COLOUR TEXT (MEMO) A4	Approx. 9.0ppm (Draft) *2
PHOTO 4R (10x15cm)	118 sec per photo* (Photo) *3
PAPER HANDLING	Friction Feed
PAPER FEED METHOD	Input capacity: 120 sheets
PAPER HOLD CAPACITY	A4, A5, A6, B5, Letter, Legal, Half Letter, Executive
PAPER SIZE	Envelopes: No.10, DL, C6, 132 X 220mm
INK CARTRIDGES	
BLACK INK CARTRIDGE (T0461)	540 pages comparable with 3.5% ECMA
CYAN INK CARTRIDGE (T0472)	250 pages, 5% in calculation
MAGENTA INK CARTRIDGE (T0473)	250 pages, 5% in calculation
YELLOW INK CARTRIDGE (T0474)	250 pages, 5% in calculation
INTERFACE	Parallel & USB*
CONTROL CODE	COLOUR MATCHING
EPSON ESC/P RASTER	ICM Profiles, sRGB (Win 98) Apple ColorSync 2.0 compatible
GENERAL	
RATED VOLTAGE	AC220 - 240V
RATED FREQUENCY	Max. 50-60 Hz
POWER CONSUMPTION	Approx. 12W (per ISO10561 Letter Pattern)
INPUT DATA BUFFER	32KB
NOISE LEVEL	42db (A) per ISO 7779
PRINTER SOFTWARE ON CD-ROM	
PRINTER DRIVERS	Win 95/98/ME/2000/XP; Yes
ON-LINE GUIDE

EPSON Stylus™ C65
Weight=Approx. 4.41kg

* When printed on EPSON DURABrite™ Photo Paper

*1 To use the USB port, your PC must conform to PC98 specifications, and have Windows® preinstalled. Consult the documentation provided with your PC for further information about USB connectivity. Note also that printing errors may occur if non-standard cables or more than two hub connections are used.

Print Speed Data Printout Patterns
The thumbnail images below show the printout patterns used to determine print speed specifications.

Print Speed Note:
The print times shown in this brochure are the average time for multiple prints of the same page over one minute. Times are measured from 'Print' command to delivery of the page in the tray. The speeds were achieved using the following system: 1GHz Pentium III, 128MB RAM, Windows XP, USB 1.1 interface. Print times will vary depending on computer configuration, settings application, coverage and page complexity.

- * 80 years on Epson Matte type media
- Under fluorescent (indoor display condition) with glass mount.
- For use with EPSON Matte Paper - Heavy Weight.
- The data is calculated by EPSON's accelerated test and it does not mean EPSON guaranteed periods.
- The estimated longevity does not indicate the colour changing and the durability of the paper itself
- Lightfastness rating may vary depending on papers
- This lightfastness test is a simulation of colour fading in an indoor preservation conditions that you display your prints. Factors, other than light, such as ozone, temperature and humidity can affect the print life.

Lightfastness Test Criteria (Indoor Display Condition)

Light source : Fluorescent light
Intensity : 70,000 lux
Temperature : 24°C
Humidity : 60%RH
Glass mount : 2mm, soda lime
Fade criteria : Pure YMC 30% loss at OD=1
Display-life : Total illumination / (500 lux x 10 hours
Calculation x 365 days=1 year)

*Test developed and conducted by EPSON.

DURABrite™
INK
iNKdividual

INK JET PRINTER
EPSON STYLUS™ C65

INKdividual™ Creativity

Sit back to enjoy all your digital shots on ordinary plain paper before choosing a select few to publish on specialty media. Updated with a stylish look, EPSON Stylus™ C65 comes with DURABrite™ Ink in INKdividual™ cartridges for convenient best photo printing on plain paper and specialty media. Innovative software features means that you can now do much more with this 4-colour inkjet printer.

New Photo Sharing Style with INKdividual™ DURABrite™ Inks

DURABrite™ Photos on Plain Paper

Too expensive to share your digital shots in print? EPSON exclusive **DURABrite™ Ink** technology produces sharper and more realistic prints even on plain paper with its minute pigment particles. Now you can proudly share your cherished moments with everyone.

Or print them **BorderFree** for 4R (10x15cm) only and at up to **5760x1440 dpi** with **EPSON DURABrite™ Photo Paper** for that professional look that grandma will appreciate.

Not to mention it reproduces crisp and dense text that rivals text printing from more expensive printing technology.

Water and Fade Resistant

Being pigment-based, a **DURABrite™ print** is water and fade resistant. In fact, a print will last up to 80 years* against fading.

* EPSON Matte Paper Heavyweight

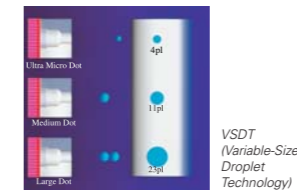

DURABrite™ is INKdividual™

Lower printing costs with **INKdividual™ cartridges** that allow single replacement of the depleted cartridge. Save money by replacing only the colour that runs out. **Black Ink Save Mode** provides an emergency back-up alternative by operating with the colour cartridges for a composite black colour when black ink runs low.

Breathtaking Printing Speed

Swift but Silent

Black text is printed at up to **17.0 ppm** and colour text at up to a rapid **9.0 ppm**. Photo printing performance is optimised using **EPSON Advanced MicroPiezo print-head** - the **4pl Variable Sized Droplet Technology**. A 4R (10x15cm) photo printout takes only about 118 seconds. Its superior design allows the printer to operate swiftly but silently.

Fun and Intelligent Printing

Efficient, Simple and Hassle-Free Printing

Whether printing on plain paper or photo paper, the graphical user interface is easily understandable and controllable. Define your preferences, or just leave everything to the printer.

Fun with Imagination and Creativity

The printer driver comes with one-click **PhotoEnhance 4** to create special effects like monochrome printing, sepia printing, parchment etc for a unique photograph. For your home projects, there's a suite of functions like print preview, N-up printing and poster printing. Impress at school presentations with personally designed and printed posters.

Innovative Software Features

EPSON PhotoQuicker 3.5

Easily print great photos. **EPSON PhotoQuicker 3.5** automatically resizes photographs to the intended size without any need for complicated calculations. It even retouches photograph quickly with a red eye reduction feature. There is also a new function for printouts similar to traditional silver halide photographs.

Frames for Print Images

Decorate photographs with frames, print in an album format, with the **PRINT Image Framer (PIF)** feature included in EPSON PhotoQuicker 3.5. It is unlimited fun with new frames made available periodically in EPSON Photo web-site (www.epsonphoto.com.sg). Now with EPSON Stylus™ C65, **Disney frames** are included with a wide selection of your favourite Disney characters.

© Disney Based on the "Winnie the Pooh" works, by A.A. Milne and E.H. Shepard

Improved Digital Camera Correction

For a clearer print from digital camera images, this feature removes 'noise' from the data to give you prints with brilliant clarity.

Photo with 'noise'

Digital Camera Correction

Printer for Mobile Phone Camera

Been taking shots with your camera phone? Print them using the **Mobile Phone Print Mode** in PhotoQuicker 3.5 to share with family and friends.

Digital Camera Solution

EPSON PhotoQuicker 3.5 also optimises prints from a **PIM II / Exif Print** enabled camera. Truly brilliant prints made easy.

NEW EPSON Web-to-Page

Printing pages from the Internet is now that much simpler. EPSON Web-to-Page (Windows only) program optimises page settings on Microsoft Internet Explorer browser 5.5 or later so that most Web pages are printed to conform to the required paper size. Preview and print with the handy **EPSON Web-to-Page** toolbar that appears on the browser.

It is the only printer in its class to provide dual USB and parallel ports for easy connectivity to PCs (Windows Only).

DURABrite™ Printing – You Can Do More

Not only can you expect photo-quality, long-lasting and fast printouts on photo and ordinary plain paper, there are innumerable creative projects that the printer can be used for. Enjoy and indulge in affordable photo and project publishing, made possible by EPSON Stylus™ C65 with DURABrite™ Ink. Convenient scan and print is possible together with EPSON Perfection scanners.

Facts on Genuine Inks

Superior Image Quality

For prints as vivid as your memories. EPSON inks are designed to work specifically with your printer hardware, and to deliver stable, long-lasting, photographic quality – quality that cannot be matched by third party inks.

Longer Print Life

For brilliant prints that last and last. Permanence, or how long a print will last before noticeable fading when it's on display and exposed to light, is where third party inks really pale in comparison to EPSON's inks. In a recent study, Henry Wilhelm, a leading authority on photo longevity, projected EPSON inks to last for up to 92 years* when used with EPSON paper.

EPSON STYLUS™ C82 INK TEST - PRINT LIFE

INK BRANDS	DISPLAY PERMANENCE (number of years)
G&G	(0.5)
0A100	(0.5)
RAINBOW LOGO	(1)
EPSON	(92)

*PC World Magazine 9/03, test conducted using EPSON STYLUS™ C82 with EPSON DURABrite™ Ink on EPSON Matte Paper Heavyweight

Greater Reliability

Because we value your time as much as you do. All ink jet printers provide print-head nozzle cleaning cycles to ensure reliable ink flow. Ink is used in these cleaning cycles. According to a study conducted by Torrey Pines Research, third party inks require up to 25 times more user-initiated cleaning cycles than EPSON ink cartridges.²

EPSON STYLUS™ COLOR 777 INK TEST - NOZZLE CLEANING CYCLES PER 1000 PAGES

EPSON	1.8
BRAND E	44.9
BRAND F	45.7

²Torrey Pines Research, test of EPSON genuine ink vs. third party inks.

Unbeatable Value

More prints per cartridge. Torrey Pines Research stated that EPSON inks "consistently outperformed third party ink brands" when it comes to the number of prints per cartridge. In fact, the study showed that EPSON inks produces up to 114 more pages per black ink cartridge and 19 more pages per colour cartridge.³ EPSON ink prints up to 30% more than third party ink.

The Final Facts

The research proves not only that "you get what you pay for", but with genuine EPSON inks, you get substantially more. For more on the advantages of using genuine EPSON inks versus third party inks, go to www.epson.com/genuineink.
