

FACTS ON GENUINE INK

Superior Image Quality

For prints as vivid as your memories. Epson inks are designed to work specifically with your printer hardware, and to deliver stable, long-lasting, photographic quality – quality that cannot be matched by non-genuine inks.

Longer Print Life

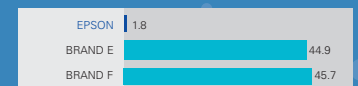

For brilliant prints that last and last. Permanence, or how long a print will last before noticeable fading when it's on display and exposed to light, is where non-genuine inks really pale in comparison to Epson's inks. In a recent study, Henry Wilhelm, a leading authority on photo longevity, projected Epson inks to last for up to 92 years when used with Epson paper.

INK BRANDS	DISPLAY PERMANENCE (number of years)	EPSON STYLUS™ C82 INK TEST - PRINT LIFE
G&G	(0.5)	PC World Magazine 9/03, test conducted using EPSON Stylus™ C82 with EPSON DURABrite™ Ink on EPSON Matte Paper-Heavyweight

Greater Reliability

Because we value your time as much as you do. All ink jet printers provide print-head nozzle cleaning cycles to ensure reliable ink flow. Ink is used in these cleaning cycles. According to a study conducted by Torrey Pines Research, non-genuine inks require up to 25 times more user-initiated cleaning cycles than Epson ink cartridges².

EPSON STYLUS™ COLOR 777 INK TEST - NOZZLE
CLEANING CYCLES PER 1000 PAGES

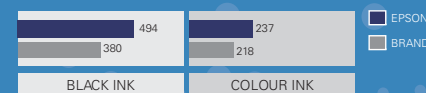

²Torrey Pines Research, test of EPSON genuine ink vs. non-genuine inks.

Unbeatable Value

More prints per cartridge. Torrey Pines Research stated that Epson inks "consistently outperformed non-genuine ink brands" when it comes to the number of prints per cartridge. In fact, the study showed that Epson inks produce up to 114 more pages per black ink cartridge and 19 more pages per colour cartridge². Epson ink prints up to 30% more than non-genuine ink.

EPSON STYLUS™ C62 INK TEST - PAGE YIELD PER CARTRIDGE

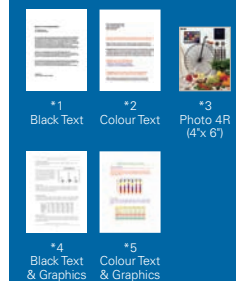

The Final Facts

The research proves not only that "you get what you pay for", but with genuine Epson inks, you get substantially more. For more on the advantages of using genuine Epson inks versus non-genuine inks, go to www.epson.com/genuineink.

Weight - Approx. 4.6kg

Print Speed Data Printout Patterns
The thumbnail images below show the printout patterns used to determine print speed specifications.

Note: Page Yield was measured by Epson original pattern.

Print Speed Note:
The print times shown in this brochure are the average time for multiple prints of the same page over one minute. Times are measured from "Print" command to delivery of the page in the tray. The speeds were achieved using the following systems: 1GHz Pentium III, 128MB RAM, Windows XP, USB 1.1 interface. Print times will vary depending on computer configuration, settings application, coverage and page complexity.

- 120 years on Epson Matte type media
- Under fluorescent (indoor display condition) with glass mount.
- For use with EPSON Matte Paper - Heavyweight.
- The data is calculated by Epson's accelerated test and it does not mean Epson guaranteed periods.
- The estimated longevity does not indicate the colour changing and the durability of the paper itself.
- Lightfastness rating may vary depending on papers.
- This light-fastness test is a simulation of colour fading in an indoor preservation condition that you display your prints. Factors, other than light, such as ozone, temperature and humidity can affect the print life.

Light-fastness Test Criteria (Indoor Display Condition)

Light source: Fluorescent light
Intensity: 70,000 lux
Temperature: 24°C
Humidity: 60%RH
Glass mount: 2mm, soda lime
Fade criteria: Pure YMC 30% loss at OD=1
Display-life: Total illuminance / (500 lux x 10 hours)
Calculation: 365 days=1 year
*Test developed and conducted by EPSON.

**HIGH EFFICIENCY PRINTING
FOR MODERN OFFICE**
MEETING YOUR INKINDIVIDUAL™ NEEDS

For greater productivity and amazing speed.

EPSON STYLUS™
C87

Exceptional quality prints on plain paper and specialty media with enhanced DURABrite™ Ultra ink in economical INKdividual™ cartridges.

- Enhanced DURABrite™ Ultra ink prints splendidly on plain paper for substantial savings and protects documents with improved water-resistance and light-fastness up to 120 years*
- INKdividual™ cartridges controls printing costs for maximum savings in ink usage
- Experience accelerated speed and productivity at 22ppm
- Premium quality print-outs for SOHO and advanced home users to make an impact

DURABrite™ Ultra Quality

Competitor's

Ordinary Dye Ink

Finest quality print-outs on plain or glossy photo paper with the improved DURABrite™ Ultra ink lets you save significantly on photo and document printing. Enhanced for water-resistant and light-fast qualities, the ink protects important photos and documents from smudging and fading for up to 120 years*.

Maximise INKdividual™ Efficiency

High efficiency INKdividual™ cartridges lower printing costs and increase yield. Just replace the single depleted cartridge for maximum savings – no wastage whatsoever. The Black Ink Save Mode mixes colour inks to be used as replacement when the black ink runs out unexpectedly.

Make an Impact

No margin A4 BorderFree™ Photo

Let pristine quality photo and document print-outs make a statement for you in advanced home projects or business proposals. Print up to an impressive 5760 dpi at 3pl with Variable Sized Droplet Technology (VSDT) resolution and A4 BorderFree™. No compromises between quality and speed – race ahead with printing speed of up to 22ppm.

Enterprising Innovation

Images for business proposals and home projects are easily prepared with EPSON Creativity Suite and EPSON Easy Photo Print for hassle-free management of digital images. Print Image Framer (P.I.F.) contents and P.I.F. Designer are also available. EPSON web-to-page automatically aligns Internet pages to conform to the required paper size.

A networking option is available using external print server. Easily connect to PC and Macintosh® computers through a USB 2.0 interface.

Added Paper Support

Enjoy more paper flexibility. Create great-looking prints that are long-lasting and economical with DURABrite™ Ultra and INKdividual™ cartridge whether printing on plain paper or specialty paper.

PRINT Image Matching III

Print true-to-life photos from your digital camera with Epson's award-winning PRINT Image Matching Technology. In addition, Exif Print is supported too.

USE ONLY GENUINE INK

Only Epson genuine ink guarantees the superior performance of your printer. For absolute peace of mind every time you send a print, use only genuine ink.

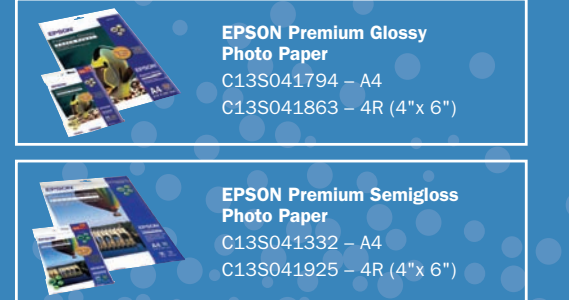

- Prevents possible printer damages caused by non-genuine ink
- Ensures superior photo quality, always
- Assures you of greater reliability with less ink wasted on reprints or print-head cleaning
- Consistently outperformed non-genuine ink as tested by independent research company (see overleaf)
- Ensures greater value for your money

Genuine Ink Cartridges for EPSON Stylus™ C87

This set of INKdividual™ ink cartridges features the enhanced ink called DURABrite™ Ultra for greater photo glossiness and longer durability. DURABrite™ Ultra ink also promotes excellent photo quality on plain paper and is highly resistant to water, now that's another reason why genuine ink gives you peace of mind!

For beautiful and lasting photos, we recommend the EPSON Premium Glossy Photo Paper for professional glossy finish and EPSON Premium Semigloss Photo Paper for a matte finish.

EPSON Premium Glossy Photo Paper
C13S041794 – A4
C13S041863 – 4R (4" x 6")

EPSON Premium Semigloss Photo Paper
C13S041332 – A4
C13S041925 – 4R (4" x 6")

* Light-fastness up to 120 years accordance with Epson's test condition printed on EPSON Matte Paper-Heavyweight.
