

Facts on Genuine Inks

Superior Image Quality

For prints as vivid as your memories. Epson inks are designed to work specifically with your printer hardware, and to deliver stable, long-lasting, photographic quality – quality that cannot be matched by non-genuine inks.

Longer Print Life

For brilliant prints that last and last. Permanence, or how long a print will last before noticeable fading when it's on display and exposed to light, is where non-genuine inks really pale in comparison to Epson's inks. In a recent study, Henry Wilhelm, a leading authority on photo longevity, projected Epson inks to last up to 92 years¹ when used with Epson paper.

EPSON STYLUS™ C82 INK TEST - PRINT LIFE

¹PC World Magazine 9/03, test conducted using EPSON STYLUS™ C82 with EPSON DURABrite™ Ink on EPSON Matte Paper-Heavyweight

Greater Reliability

Because we value your time as much as you do. All ink jet printers provide print-head nozzle cleaning cycles to ensure reliable ink flow. Ink is used in these cleaning cycles. According to a study conducted by Torrey Pines Research, non-genuine inks require up to 25 times more user-initiated cleaning cycles than Epson ink cartridges².

EPSON STYLUS™ COLOR 777 INK TEST - NOZZLE CLEANING CYCLES PER 1000 PAGES

²Torrey Pines Research, test of EPSON genuine ink vs. non-genuine inks.

Unbeatable Value

More prints per cartridge. Torrey Pines Research stated that Epson inks “consistently outperformed non-genuine ink brands” when it comes to the number of prints per cartridge. In fact, the study showed that Epson inks produces up to 1.14 more pages per black ink cartridge and 19 more pages per colour cartridge³. Epson ink prints up to 30% more than non-genuine ink.

EPSON STYLUS™ C62 INK TEST - PAGE YIELD PER CARTRIDGE

³Torrey Pines Research, test of EPSON genuine ink vs. non-genuine ink.

The Final Facts

The research proves not only that: “you get what you pay for”, but with genuine Epson inks, you get substantially more. For more on the advantages of using genuine Epson inks versus non-genuine inks, go to www.epson.com/genuineink.

Print Speed Data Printout
Patterns The thumbnail images below show the printout patterns used to determine print speed specification.

Print Speed Note:
The print times shown in this brochure are the average time for multiple prints of the same page over one time or time to print one photo. Times are measured from “Print” command to delivery of the page in the tray. The speeds were achieved using the following system: 1 GHz Pentium III, 128MB RAM, Windows XP, USB 1.1 interface. Print times will vary depending on computer configuration, settings application, coverage and page complexity.

¹ 120 years on Epson Matte type media
² Under fluorescent (indoor display condition) with glass mount.
³ For use with EPSON Matte Paper - Heavy Weight.
⁴ The data is calculated by EPSON's accelerated test and it does not mean EPSON guaranteed periods.
⁵ The estimated longevity does not indicate the colour changing and the durability of the paper itself.
⁶ Lightfastness rating may vary depending on papers.
⁷ The lightfastness test is a simulation of colour fading in an indoor preservation conditions that you display your prints. Factors, other than light, such as ozone, temperature and humidity can affect the print life.

Lightfastness Test Criteria (Indoor Display Condition)
 Light source : Fluorescent light
 Intensity : 70,000 lux
 Temperature : 24°C
 Humidity : 60%RH
 Glass mount : 2mm, soda lime
 Fade criteria : Pure YMC 30% loss at OD=1
 Display-life : Total illuminance /500 lux x 10 hours
 Calculation x 365 days=1 year
⁸ Test developed and conducted by EPSON.

ALL-IN-ONE
EPSON STYLUS™
CX4100

SIMPLE LIFESTYLE IMAGING
MEETING YOUR INKINDIVIDUAL™ NEEDS

EPSON
EXCEED YOUR VISION

Stunning photo quality prints of digital images and crisp clear documents with superb PC-less All-In-One Print, Copy, Scan functions and Pictbridge support.

EPSON STYLUS™ CX4100

Attain productivity and economy with new DURABrite™ Ultra plain paper printing and copying up to A4 BorderFree™. Enhanced photocopying abilities make this the ideal home or office companion.

- DURABrite™ Ultra ink creates vibrant photo quality prints and ultra-crisp text documents on low cost plain paper which are water, smudge and fade resistant for up to 120 years*
- INKdividual™ cartridges are more economical by making full use of ink resources and avoiding wastage
- Enhanced copy functions provide a low-cost effective alternative to a dedicated photocopier for small business applications
- Speed and versatility with PC-less BorderFree™ photo printing or copying up to A4 size
- Standalone Print and Copy functions deliver superb output and results

DURABrite™ Ultra – Photos Alive!

See your photos come alive! Enhanced DURABrite™ Ultra Ink produces exemplary results on plain paper or specialty media for incredibly realistic photos and outstanding documents. Ultra-durable prints with inherent water and fade-resistant ink properties provide considerable savings by staying pristine for up to 120 years*.

INKdividual™ Productivity with Minimum Costs

Boost productivity and minimise printing costs with INKdividual™ cartridges. Enjoy ink economy and eliminate any wastage by replacing the single depleted cartridge. Black Ink Save Mode is intelligent enough to mix colour inks as a replacement when black ink runs out.

Convenient PC-less Copying for the Small Office

Just walk up & copy, no warm up time required. Copies are ready in an instant. With the flexibility to output up to 100 copies at a time and fast speeds up to 18cpm, you have the handy office companion.

With the simple control panel, make multiple copies of those important handouts or training materials. Ideal for small businesses that cannot justify the expense of a dedicated copier.

The Best Things in Life are Simple

Supreme 5760 dpi optimised resolution at 3pl and A4 BorderFree™ promises the best quality prints for office presentations and school projects. Go PC-less with Pictbridge and USB Direct Print for faster and simpler photo printing. Full-colour 'photo' copying for your lifestyle needs, perfect for SOHO and home users, it's effortless.

Premium Digital Imaging

Create gorgeous 1200dpi digital images of your photographs with EPSON premium 48bit colour-depth scanning technologies. Using the inbuilt photo restore function, rejuvenate your old faded photos at the click of a button and print them back to life in full colour.

Epson's award-winning PIM III also colour matches digital images to ensure true-to-life prints.

Smart Software Suite

The new integrated software, EPSON Creativity Suite, makes management of a digital image library so easy. EPSON Easy Photo Print quickly and easily guides you to print your precious memories. Take pleasure in creative projects using Print Image Framer and Designer. In addition, EPSON web-to-page automatically aligns Internet pages for A4 printing.

USE ONLY GENUINE INK

Only Epson genuine ink guarantees the superior performance of your printer. For absolute peace of mind every time you send a print, use only genuine ink.

- Prevents possible printer damages caused by non-genuine ink
- Ensures superior photo quality, always
- Assures you of greater reliability with less ink wasted on reprints or print-head cleaning
- Consistently outperformed non-genuine ink as tested by independent research company (see overleaf)
- Ensures greater value for your money

Genuine Ink Cartridges for EPSON Stylus™ CX4100

This set of INKdividual™ ink cartridges features the enhanced ink called DURABrite™ Ultra for greater photo glossiness and longer durability. DURABrite™ Ultra ink also promotes excellent photo quality on plain paper and is highly resistant to water, now that's another reason why genuine ink gives you peace of mind!

For beautiful and lasting photos, we recommend the EPSON Premium Glossy Photo Paper for professional glossy finish and EPSON Premium Semigloss Photo Paper for a matte finish.

EPSON Premium Glossy Photo Paper
