INKdividual™ Style

The EPSON Stylus™ Photo R210 is the perfect companion with your scanners and digital cameras. Produce beautiful and durable true BorderFree™ pictures in the convenience of your own home today! Your personal photo printer, the stylish EPSON Stylus™ Photo R210 is designed with a **6-colour Photo Ink system** for vibrant and brilliant colours. Pictures come alive at up to **5760 x 1440** optimised dpi. Equipped with **INKdividual™ cartridges**, it is the affordable choice in premium photo printing. Display your individual style – print directly onto **printable CDs/DVDs*** for personalisation of your own CDs/DVDs*.

Stand Out
from the crowd
Beauty & durability

EPSON Stylus™ Photo R210 delivers with a **6-colour Photo Ink system** that gives you only the best in brighter, more vibrant colours and rich blacks for brilliant photo quality and ultra-sharp black text documents.

Photo-lab quality printouts from a **6-colour ink system** make your photographs stand out. Only with the wider range of 6-colour inks, will a more extensive array of colour hues be produced for smoother colour transitions and virtually **'grain-free'** true-to-life, photo-quality pictures. Able to print up to the outstanding resolution of **5760 x 1440** optimised dpi at **3pl Variable Sized Droplet Technology (VSDT),** all the miniscule details of the picture are reproduced precisely.

Be sure of getting stunning and durable results on glossy media, with EPSON's Photo Ink. The **Photo Ink** produces printouts with improved light-fastness to last as long as most traditionally lab-processed pictures, when printed on **EPSON's Premium Glossy Photo Paper.** Resin-coated with super glossy finish for a professional look, this photo media is available in affordable 4R (10 x 15cm) or A4 sizes. **BorderFree™** printouts are available in the popular A4 and 4R sizes.
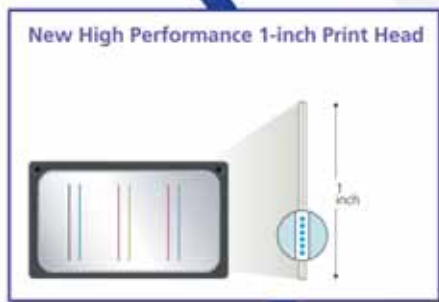

4R

A4

Choose between the two photo printing modes **'Vivid'** and **'Standard'**. **'Vivid'** uses EPSON's new preferred colour for more appealing pictures with natural skin tones and radiant, exuberant colours, while **'Standard'** photo printing produces exact, faithful representation of images.

'Vivid' printing mode

'Standard' printing mode

Stay ahead
of the rest

Printing speed is now dramatically increased with a high performance one-inch print head (540 nozzles) that covers and prints a larger area in a single pass. **Together with the minute 3 pico-litre Variable Sized Droplet Technology,** the printer promises higher quality, speed and sharper image clarity. **Printouts are produced at as fast as 15.6 ppm for black text, 15.1 ppm for colours and 39 seconds for 4R (10x15cm) photos.**

New High Performance 1-inch Print Head

Personalised
Storage Media

Print your favourite images on the face of printable CDs. Featuring improved front-loading mechanism design and EPSON PrintCD software, have fun designing a unique CD for yourself or as a gift for family or friends in just a few steps. In the Heavy-Duty mode, printing on selected premium printable CDs/DVDs* produces even sharper image quality.

Inkdividual™
Cartridge

With the 6 colours of the Photo Ink being housed in INKdividual™ cartridges, replace only the depleted colour cartridge for optimal ink usage.

*Dependent on CD-R/DVD-R coating.

Fun tools

Enjoy quick and easy photo printing with the updated PhotoQuicker 3.5. The perfect mate for your digital camera, it is compatible with EPSON's award-winning PRINT Image Matching Technology, and Exif Print 2.21. It's fun too! Exhibit your creativity with EPSON's PRINT Image Framer (P.I.F.). Personalise your favourite digital pictures with beautiful and interesting frame templates or use P.I.F. Designer to create new unique image frames. For additional photo and PRINT Image Framer resources, visit www.epsonphoto.com.sg.

A sleek and compact design, the printer is easily connectable to PCs or Macintosh® with two USB ports. Designed for your convenience in mind, one of the USB ports is situated at the front for an effortless link-up to another computer/laptop simultaneously for printer sharing.

Affordable premium Photo Printing

Straightforward, easy and fun premium photo printing. No wonder EPSON Stylus™ Photo R210 is the affordable choice for home users in printing photo-lab quality photographs.

Print Speed Note:
The print times shown in this brochure are the average time for multiple prints of the same page over one minute. Times are measured from 'Print' command to delivery of the page in the tray. The speeds were achieved using the following system: 1Ghz Pentium III, 128MB RAM. Windows ME, USB Interface. Print times will vary depending on computer configuration, settings application, coverage and page complexity.
