

Scanning with Top Distinction

With outstanding scanning resolution of up to 4800dpi, coupled with MatrixCCD technology and a revolutionary On Chip Micro-Lens, Epson scanners ensure digital imaging with utmost distinctiveness and clarity for both film and photos.

Every scan is a visual treat of brilliant colours with 48-bit colour depth and an optical density of up to 4.0.

Impressive film scanning capability

Epson scanners support multiple film formats, of up to 4"x5" that would meet the different needs of each user.

EPSON Easy Photo Fix™

Revitalise old film or photos that have deteriorated with time. EPSON Easy Photo Fix™ comes with Color Restoration function to restore faded films or photos and Dust Removal to remove 'white spots' from dust particles on aged film negatives.

Digital ICE™ Perfection

Inherent in some Epson scanners is Digital ICE™ technology, which combines hardware detection and software processing to easily eliminate stubborn dust or scratch images on your images.

Print Speed Data Printout Patterns
The thumbnail images below show the printout patterns used to determine print speed specification.

Print Speed Note:
The print times shown in this brochure are the average time for multiple prints of the same page over one time or time to print one photo. Times are measured from 'Print' command to delivery of the page in the tray. The speeds were achieved using the following system: 1Ghz Pentium III, 128MB RAM, Windows XP, USB 1.1 interface. Print times will vary depending on computer configuration, settings application, coverage and page complexity.

EXCEED YOUR VISION

EPSON STYLUS™
PHOTO R250

**YOUR PC-LESS
INKINDIVIDUAL™ PHOTO STUDIO**

Greater photo printing enjoyment is yours with this outstanding **PC-Less INKdividual™ photo printer with card-slots and preview LCD monitor.**

EPSON STYLUS™ PHOTO R250

Print gorgeous photo-lab quality photos at popular 4R (4"x6") or 5R (5"x7") or up to A4 true BorderFree™ conveniently at home.

- Beautiful photo-lab quality prints with EPSON's Photo ink of optimised 5760dpi & 2pl printed effortlessly right in your home
- PC-Less digital printing convenience with memory card-slots, PictBridge and USB Direct Print, with a built-in colour preview monitor
- INKdividual™ cartridges make photo printing so affordable
- Manage digital images simply with EPSON Creativity Suite

Home Printing Comfort

Print the same high quality photo as traditional photo lab with **5760 optimised dpi** at an improved minimum **2pl** Variable Sized Droplet Technology (VSDT). Using the Micro Piezo print head, print up to A4 true BorderFree™ with EPSON Stylus™ Photo R250 and enjoy much greater convenience at home.

Printed with EPSON Photo Ink, you will appreciate the wide colour gamut, long-lasting and the high gloss quality on EPSON's Premium Glossy Photo Paper or EPSON Ultra Glossy Photo Paper, for that home-made professional glossy finish.

Easy Digital Enhancement

Digital images turn out in higher contrast with EPSON award winning **PRINT Image Matching III** technology and PhotoEnhance automatic scene detection and correction.

Affordable, beautiful photo printing at home is the way to go with EPSON Stylus™ Photo R250.

PC-less Photo Direct Convenience

Easily retrieve digital images from memory cards, or link up to digital cameras via **PictBridge** or **USB Direct Print**.

Easy printing with the built-in colour preview monitor and just print away.

INKdividual™ Printing Economy

INKdividual™ cartridges are an economical solution for optimal ink usage. Simply replace the single cartridge that runs out instead of throwing an entire set away. An intelligent Black Ink Save Mode mixes colour inks as an emergency back-up when black ink is depleted.

INK DIVIDUAL

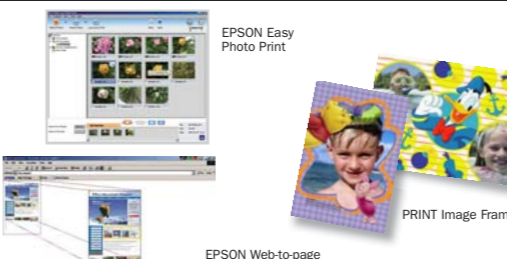

Set Up the Pace

Improved photo printing speeds produces photos at up to 47s for a 4R (4"x6") photo. A Hi-speed 2.0 USB interface ensures faster data communication between the computer and the classy printer.

Photo Creativity and Fun

Engage in photo creativity and fun. The **EPSON Creativity Suite** and **EPSON Easy Photo Print** make handling and printing digital images so simple, or use EPSON File Manager for convenient image correction.

Personalise photos with **PRINT Image Framer (P.I.F.)**, pose in favourite Disney cartoon frames or design unique frames with PIF Designer. EPSON web-to-page automatically aligns Internet pages for printing to a required paper size.

USE ONLY GENUINE INK

Only Epson genuine ink guarantees the superior performance of your printer. For absolute peace of mind every time you send a print, use only genuine ink.

- Prevents possible printer damages caused by non-genuine ink
- Ensures superior photo quality, always
- Assures you of greater reliability with less ink wasted on reprints or print-head cleaning
- Consistently outperformed non-genuine ink as tested by independent research company (see overleaf)
- Ensures greater value for your money
