

## superior scans at a touch

### Combined photo-quality, affordability and convenience

#### memories disc creator - bring your images into the living room

- scan your favourite images or photos into your PC
- with HP Memories Disc Creator software\* you can create a CD presentation of your photos, complete with your choice of background music **New!**
- the CD presentation can be created in different formats (PAL, NTSC, etc) for easy playback on most VCD and DVD players
- intuitive software helps you design your CD jewel cover case

#### quick, crisp scans in 1200 dpi and 48-bit colour

- HP's exclusive dual sensor CCD technology enables exceptionally crisp and sharp scans of photos, graphics and text

- true 48-bit colour depth delivers true-to-original, colour rich images
- ideal for everyday scanning where time and space are at a premium
- speedy preview scans in as little as 10 seconds

#### easy one-touch scanning, copying and e-mailing

- three front panel buttons - scan, copy and e-mail
- one-step access to frequently-used scanning commands eliminates tedious steps and saves time (eg. e-mail button automatically saves scanned image in attachment format)

#### scan 3-D objects easily

- HP's CCD technology enables convenient and accurate scanning of 3-D objects such as memorabilia, framed photos, and more, giving you clear crisp results
- adjustable lid effortlessly accommodates scanning of thick books and other 3-D objects

\* CD-writer required
