Unleash the power of home photo printing.

Introducing the new HP Photosmart printers – enjoy the world's fastest home photo printing.

HP photos – the world's longest lasting photos!¹

Print an HP photo, slide it under a photo frame and enjoy image permanence that last for generations.² The combination of HP Viverra Inks and HP Premium Plus Photo Paper, lets each photo last three times longer than a traditional lab photo. Now you can preserve memories in their truest form.

¹ For more information, please visit www.hp.com/apac/longlasting

² For more information, please visit www.wilhelm-research.com/

World's fastest³ photo printer.

Print 24 photos in 7 minutes at home. Quickly access your photos from a memory card or PictBridge camera and print without a PC. With HP, you are assured of the fastest way to enjoy your photos!

³ Speed comparisons in default and fastest modes, when printing from a computer, based upon HP internal testing of comparable consumer photo printing products available as of April 2005.

It all adds up to great HP photo

HP Photosmart 8230 Printer

4 x 6-inch print speed – 14 seconds
- 6-ink printing
- Connectivity – PictBridge, Bluetooth⁴ (optional) and memory card slots
- Colour graphic display – 2.5-inch

4 x 6-inch photo

⁴ Wireless printing only supported on Windows® XP operating system and requires HP bt300 Bluetooth® Wireless Printer Adapter; not included, purchase separately.

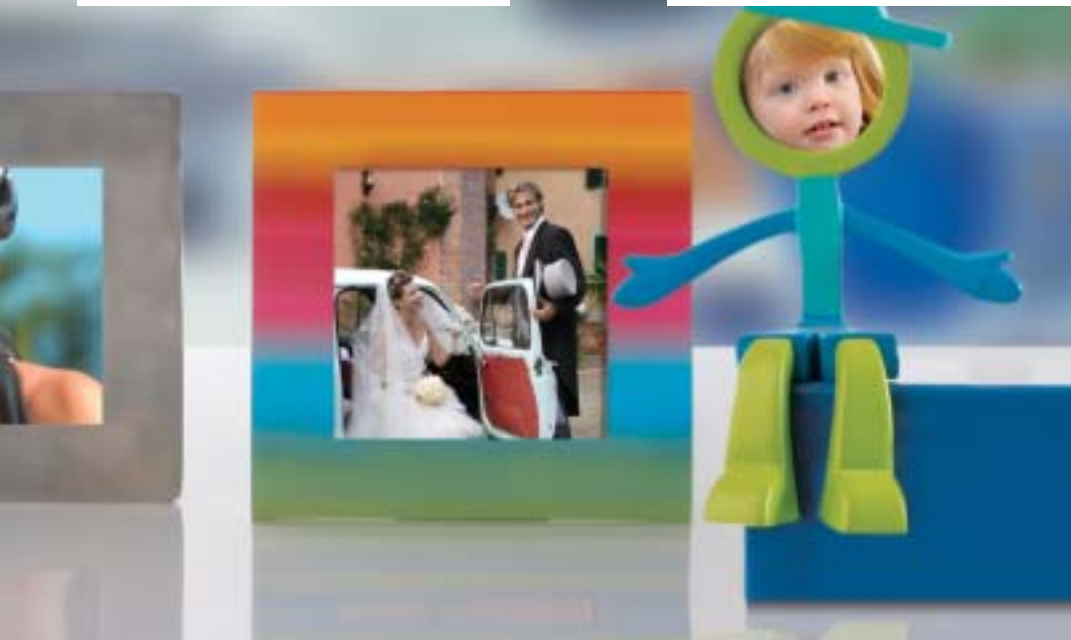

⁵ With optional HP Black Inkjet Print Cartridge; not included, sold separately.

Gallery quality photos and laser-quality text printing – a printer for all your needs!

Whether it's graduation day, a honeymoon or a newborn's first step, HP Photosmart printers ensure that these memorable milestones in your life are printed out in true-to-life quality. Thanks to 6-ink colour printing, you can enjoy a wide colour range along with rich black tones. What's more, these printers deliver laser quality text printing as well. Great for printing professional-looking documents and projects!

Printing innovations – the smart way to print!

An HP Photosmart printer accepts images from virtually any digital camera. What's more, HP Real Life technologies help you to automatically brighten photos and remove 'red-eye' effects without a PC! And the intelligent Photosmart 8230 even reads the paper you load, feels its texture and then decides on how best to print your photos!

printing!

HP Photosmart 8030 Printer

fastest photo printing.¹

New HP Advanced Photo Paper

- Instant dry finishing. Perfect for high-speed photo printing needs

HP Individual Print Cartridges

vivera
HP INKS

Beautiful 4 x 6-inch photos in just 14 seconds

- Fast colour printing performance at 31 pages per minute (ppm).
- Enjoy true-to-life photos with 6-ink colour printing
- Specially formulated HP Vivera Inks bring the colour and energy to each photo without the appearance of grain

* Speed comparisons in default and fastest modes, when printing from a computer and using HP Advanced Photo Papers, based upon HP internal testing of comparable consumer photo printing products available as of April 2005.

Michael Yamashita – a leading National Geographic photographer on HP Photosmart printers

"The colours are so energetic, the textures so real – it truly captures the moment."

Designed for efficient high volume printing

- New individual ink cartridges caters to users who print more than 100 photos or documents a month
- Innovative cartridge design makes sure nearly every drop of ink is used up so that there is no ink wastage

Sharp, laser-quality text

- Enjoy versatile black text printing with HP Vivera black inks
- Get up to 32 ppm black text printing

printing.

Enhanced red-eye removal

Removes red-eye problems with more control and precision. This results in a more realistic photo.

PictBridge compatibility

Connect a PictBridge compatible digital camera to the front mounted USB port and print.

HP Photo Proof Sheet technology

Print photos and more by simply filling in a form.

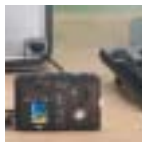

HP Page Completion feature

HP Smart printing technology enables a page completion feature that helps ensure that printing does not stop mid-way through a page or photo.

Enhanced HP Auto Sense

Automatically recognises a broad range of paper types and optimises the print quality. It also warns you when a media has been wrongly loaded with it printable side down.

HP Photosmart 8030 Printer

Now your photos can last for generations¹ with HP Vivera inks and HP Premium Plus Photo Paper. Printing from any digital camera is easy. Either slot in a digital memory card into the printer or print directly from a PictBridge compatible camera via a USB cable – no PC required. The HP Photosmart 8030 is also equipped with an 1.8-inch colour graphic display, so you can conveniently select and edit your photos before you print!

Prefer to edit photos using a PC? Then the HP Photosmart 7830 may be ideal for your needs. It has a numeric display for easy photo selection.
