A special built-in Transparent Materials Adapter (TMA) allows you to scan much more than your usual documents and standard photos. Even 35mm slides and negatives can be converted into digital files for easy sharing and storage.

Turn slides and negatives into digital files easily with the Transparent Materials Adapter (TMA).

Photo sharing made easy

Save many photos in one scan

The HP Scanjet 3770 lets you scan a number of photos at one time, and automatically saves each photo as an individual file in your chosen location for easy retrieval. It's ideal for older or odd-sized photos as there's no need to crop or resize.
