

Your digital scanning centre  
for fast, true-to-life results.

## HP Scanjet 4070

Photosmart Scanner

The HP Scanjet 4070 is your one-stop digital scanning centre. It features automatic photo enhancement and optimising functions at the touch of a button. Now, you can not only scan photos easily, but also convert documents and books efficiently into digital files that are easy to store and share.

### One-stop photo scanning

Scan photos, slides and negatives quickly and effortlessly. The built-in HP photo door holds up to 12 standard-size photos or four 35mm slides or film negative frames in an optimised zone. You can easily convert these traditional photo formats into digital files for enhancing, printing, sharing and storing.

### True-to-life images

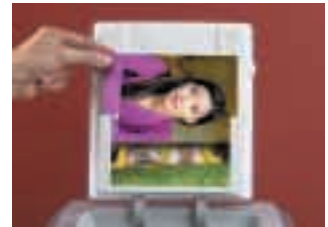

Scan at 2400 dpi optical resolution and 48-bit colour for digital photo files with a high level of sharpness and clarity. The HP Scanjet 4070 allows you to easily optimise image quality so you can produce impressive photo prints.

### Restore and enhance faded photos

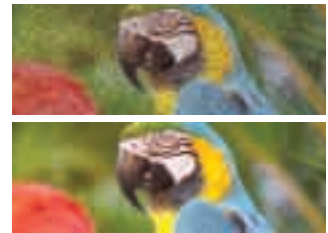

Bring faded memories back to life at a touch of a button! Simply scan your faded photos and HP Image Zone's photo-correction function automatically restores colours and shades to your pictures, giving you brilliant images once again.

### Scan and share effortlessly

Now, you can share photos easily with HP Instant Share. This user-friendly software lets you send image-rich emails to friends and family without the usual large file attachments.

A built-in HP photo door lets you effortlessly scan photos, slides and negatives.

With 2400 dpi optical resolution, you get visibly more outstanding image quality.

Restore old photos to their original brilliance.
