Overview

- 1. Quick removal access panel
- 2. Intel Xeon Processor (High performance models include two processors)
- Smart Array 6i Ultra320 array controller with optional 128MB Battery Backed Write Cache (BBWC) (High performance models include 128MB BBWC)
- 4. Three PCI-X non hot plug expansion slots (or optional PCI-X hot plug expansion cage or PCI Express expansion cage)
- Hot-plug fans, full redundancy option (High performance models include fully redundant fans)
- 6. Quick release lever for fast server access
- 7. Front LEDs (show server status) and Unit Identification button/LED (for easy in rack server identification)

- 8. 24X Max CD-ROM (High performance models include DVD-ROM drive)
- Optional 1.44 MB (3.5") Diskette Drive (High performance models include Diskette Disk Drive)
- Support for up to six 1" Ultra320 SCSI hot plug hard drives or for five hot plug hard drives and one DAT 40 or DAT 72 hot plug tape drive
- 11. USB port (USB 2.0 Support)
- 12. Hot plug power supply, redundancy option (High performance models include redundant power supply)
- 13. Six PC2-3200R 400MHz DDR2 Sockets

### Overview

### What's New

The world's best selling server just got better; the new ProLiant DL380 G4 delivers on its history of design excellence with enterprise-class uptime and manageability, proven 2-way Intel Xeon performance, and 2U density for a variety of rack deployments and applications.

Introducing the next generation ProLiant DL380 G4 now with the latest performance technologies; new High performance models are also available for convenient, fully loaded configurations.

New ProLiant DL380 G4 models:

- DL380 G4 X3.6-1MB/800, 1GB (311144-xx1)
- DL380 G4 X3.2-1MB/800, 1GB (370596-xx1)

### At a Glance

- Intel Xeon processors with EM64T, a 800MHz Front Side Bus and 1MB of L2 cache (two 3.4GHz or 3.6GHz processors included in High Performance models)
- Intel E7520 Chipset
- 1GB PC2-3200R 400MHz DDR2 Memory with online spare capabilities (2GB included in High Performance model)
- Integrated Ultra320 Smart Array 6i Controller with 64MB RAM and optional 128MB Battery-Backed Write Cache (BBWC) Enabler option kit (128MB BBWC included in High Performance models)
- Support for up to six 1" Ultra320 SCSI hot plug hard drives or for five hot plug hard drives and one DAT hot plug tape drive
- Internal hot plug capacity 1.8 TB standard (6 x 300 GB 1" HD)
- Hot Plug Fans with optional full redundancy (Included in High performance models)
- Hot Plug Power Supply with optional redundancy (Included in High performance models)
- Tool-less access to all system components for easy in rack serviceability
- Three available 64-bit PCI-X slots, including two non-hot plug 100MHz slots and one non-hot-plug 133MHz slot or optional PCI-X Hot-plug cage
  or Optional PCI Express Non-hot-plug Cage
  - NOTE: For information about PCI Express visit: http://www.hp.com/servers/pci-express
- NC7782 Dual Port PCI-X Gigabit Server Adapter (embedded)
- Optional dual channel drive backplane (2/4 split) (Included in High Performance Models)
- Optional floppy disk drive (Included in High Performance Models)
- USB 2.0 support, one port up front and two ports in back
- Quick Deploy Rail System includes sliding universal rails, an ambidextrous cable management arm and quick release levers for fast and easy serviceability and in-rack tool-less access to major components
- High performance models available fully loaded for convenience
- Integrated Lights-Out (iLO) Standard Management on system board
- Support for new iLO Shared Network Port enables access to the iLO management processor through one of the embedded system NICs
- Automatic Server Recovery (ASR), ROM Based Setup Utility (RBSU), HP System Insight Manager, Status LEDs including system health and UID and SmartStart
- Protected by HP Services, including a three-year, Next Business Day, on-site limited Global warranty and extended Pre-Failure Warranty, which covers
  processors, memory, and hard drives Certain restrictions and exclusions apply. Consult the HP Customer Support Center at 1-800-345-1518 for
  details.

## Standard Features

NOTE: For the Standard Features shipped in the "Factory Integrated Models", please see the "Configuration Information - Factory Integrated Models"

Processor Intel Xeon Processor 3.2 GHz/800MHz -1MB L2 One of the following Intel Xeon Processor 3.4 GHz/800MHz -1MB L2 depending on Model Intel Xeon Processor 3.6 GHz/800MHz -1MB L2

Cache Memory 1-MB Level 2 cache

Upgradability Upgradable to dual processing

Intel E7520 Chipset Chipset

NOTE: For more information regarding Intel chipsets, please see the following URL:

## Standard Features

Form Factor Rack (2U), (3.5-inch)

**ProLiant Essentials** Foundation Pack Software

HP Systems Insight Manager

HP's new HP Systems Insight Manager (HP SIM) helps maximize system uptime and performance and reduce system maintenance costs by providing proactive notification of problems before those problems result in unplanned downtime or reduced productivity. HP SIM are both easy to set up work with the Insight Management Agents, integrated Light-Out and Remote Insight Light-Outs Edition, and Version Control Agents to deliver robust fault, configuration, and asset management as well as remote administration. With HP SIM customers will also be able to take advantage of role-based security; the ability to manage ProLiant, Integrity, and HP 9000 systems; and plug-ins for storage, client, printer, and power management as well as server rapid deployment, performance management, and workload management. For more details on HP HP SIM visit

http://www.hp.com/go/hpsim.

SmartStart SmartStart is a tool that simplifies server setup, providing a rapid way to deploy reliable

and consistent server configurations. For more information, please visit the SmartStart Web

http://www.hp.com/servers/smartstart

SmartStart version supported (minimum): SmartStart 7.10

Management Agents The Management Agents form the foundation for HP's Intelligent Manageability strategy.

> They provide direct, browser-based access to in-depth instrumentation built into HP servers, workstations, desktops, and portables, and send alerts to HP Systems Insight Manager and other enterprise management applications in case of subsystem or environmental failures. For additional information about the Management Agents and other management

products from, HP please visit the management Web site at:

http://www.hp.com/servers/manage

Subscribers Choice Subscriber's Choice Driver and Support Alerts/Notifications is a web-based email

subscription service that provides automatic delivery of software and driver change notifications for ProLiant products. Sign up at http://www.hp.com/go/subscriberschoice and customize your profile to receive various new alerts as they become available, on a

weekly or monthly basis.

ROMPaq, support software, and configuration utilities

The latest software, drivers, and firmware fully optimized and tested for your ProLiant server and options available in SmartStart or downloadable from Software and Drivers download

pages http://www.hp.com/go/support.

Insight Diagnostics Online

Edition

The most advanced configuration analysis, reporting and troubleshooting utilities used by

HP and at your fingertips, available in SmartStart.

## Standard Features

### Optional ProLiant Essentials Value Packs

Optional software offerings that selectively extend the functionality of an Adaptive Infrastructure to address specific business problems and needs:

- Rapid Deployment Pack an automated solution for multi-server deployment and provisioning, enabling companies to quickly and easily adapt to changing business demands.
- Workload Management Pack provides easier management of complex environments, improving overall server utilization and enabling Windows 2000 customers for the first time to confidently deploy multiple applications on a single multiprocessor ProLiant Server.
- Integrated Lights-Out Advanced Pack upgrades the Integrated Lights-Out processor to full virtual presence and control with graphical console and virtual media
- Recovery Server Option Pack entry-level high availability software that will
  provide reliable protection and increased uptime against server hardware and
  operating system failures.
- Performance Management Pack a performance management solution that identifies and explains hardware performance bottlenecks on ProLiant servers and attached options enabling users to better utilize their valuable resources.
- Intelligent Networking Pack detects and analyzes network bottlenecks or broken network linkages and steers traffic to the optimum route based on network conditions.

NOTE: Flexible and volume quantity license kits are available for ProLiant Essentials Value Packs. Refer to <a href="http://www.hp.com/servers/proliantessentials">http://www.hp.com/servers/proliantessentials</a> or the various ProLiant Essentials Value Pack product QuickSpecs for more information.

NOTE: For more information regarding ProLiant Essentials Software, please see the following URL: http://www.hp.com/servers/proliantessentials

### Industry Standard Compliance

ACPI 2.0 Compliant PCI 2.2 Compliant WOL Support Microsoft® Logo certifications USB 2.0 Support

#### Remote Management

Integrated Lights Out (iLO) Standard Management:

- Virtual Text Remote Console
- Virtual Power Button Control
- Dedicated & shared LAN Connectivity
- Browser and command line access
- Automatic IP Configuration via DHCP/DNS/WINS
- Industry Standard 128-bit Secure Sockets Layer (SSL) and Secure Shell Security
- IML and iLO Event Logging
- Support for 12 user accounts with customizable access privilege
- Integrated Lights Out Advanced Pack (optional)
- Remote Insight Lights-Out Edition II (optional)

## Standard Features

Intelligent Manageability HP Systems Insight Manager

SmartStart Redundant ROM Remote Flash ROM Management Agent Integrated Management Log

Automatic Server Recovery (ASR)

Dynamic Sector Repairing (with Smart Array Controllers)

Hot Spare Boot

(NOTE: Upon the event of a failed processor or VRM in a multi-processing environment, the system will automatically

reboot and use the remaining good processor(s).)

Drive Parameter Tracking (with Smart Array Controllers)

Pre-Failure Warranty (covers processors, hard drives and memory)

Server Power Cords One Lowline NEMA power cord and One Highline IEC Power cord ships standard

Power Supply 575 Watt, CE Mark Compliant

Optional Hot Plug AC Redundant Power Supply

System Fans 5 hot plug fans ship standard. 8 hot plug fans total supported internally for full redundancy

NOTE: The additional 3 fans are available via Redundant Fan Option Kit (PN 293048-B21).

NOTE: For a more complete and up-to-date information on Linux support, please visit HP Linux Web site at:

http://h18000.www1.hp.com/products/servers/linux/hpLinuxcert.html.

## Standard Features

#### Rack Airflow Requirements Rack 10000 series Cabinets

The increasing power of new high-performance processor technology requires increased cooling efficiency for rack-mounted servers. The 10000 Series Racks provide enhanced airflow for maximum cooling, allowing these racks to be fully loaded with servers using the latest processors.

**CAUTION:** If a third-party rack is used, observe the following additional requirements to ensure adequate airflow and to prevent damage to the equipment:

- O Front and rear doors: If your 42U server rack includes closing front and rear doors, you must allow 830 square inches (5,350 sq cm) of hole evenly distributed from top to bottom to permit adequate airflow (equivalent to the required 64 percent open area for ventilation).
- O Side: The clearance between the installed rack component and the side panels of the rack must be a minimum of 2.75 inches (7 cm).

**CAUTION:** Always use blanking panels to fill all remaining empty front panel U-spaces in the rack. This arrangement ensures proper airflow. Using a rack without blanking panels results in improper cooling that can lead to thermal damage.

NOTE: For additional information, refer to the Setup and Installation Guide or the Documentation CD provided with the server, or to the server documentation located in the Support section at the following URL: http://h18000.www1.hp.com/products/servers/proliantdl380/index.html.

#### Rack Kit

The DL380 quick deploy rail system provides tool-free support for racks with square or round mounting holes (including Compaq/HP 7000, 9000, 10000 and HP series), with an adjustment range of 24" - 36". The ambidextrous cable management arm can be mounted on either the left or right side for improved cable management.

**NOTE:** Cable management arm must be removed to access hot-plug power supplies when the cable management arm is mounted on the right.

### Telco Rack Support

DL380 G4 Telco Rack Kit:

Support for all 2-post Telco racks requires the use of the standard rack kit and an additional option kit from Rack Solutions (www.racksolutions.com/hp/)

#### HP Factory Express Capabilities

HP Factory Express gives you the flexibility to choose from a full menu of factory capabilities all in one manufacturing facility, in one process, with one touch giving you full control and access to HP's World class manufacturing facility anytime. This approach provides you the speed to deploy your IT needs, with total quality assurance, reliability, and predictability to lower your total cost of ownership by letting HP install, rack, and customize your software and hardware options for you.

## Standard Features

#### Service and Support

Three-year limited warranty, including hardware diagnostic support, pre-failure warranty (coverage of hard drives, memory and processors). The warranty is fully supported by HP Services and a worldwide network of resellers and service providers. In addition 90-day's getting started software telephone support may be covered under the warranty or available for an additional fee. Enhancements to warranty services are available through HP Care Pack services.

NOTE: Limited warranty includes 3 year parts, 3 year labor, 3-year next business day on-site support

From Web-based support...to remote diagnostic tools that help decrease downtime...to dedicated onsite service, HP and its service partners provide "as-you-need-it" access to ProLiant-specific knowledge and skills no other vendor can match.

Care Pack services provide a range of life cycle support options that let you choose the service levels that meet your business requirements, from basic to mission-critical.

A full range of HP Care Pack hardware and software services are available including:

- Installation and Start up services helps you get your ProLiant servers deployed rapidly
- Education courses provide industry leading training for IT professionals
- Support services for fast, efficient resolution of hardware and software issues
- Extending onsite hardware warranty coverage from next business day to same business day 13 hours, 5 day or 24 hours, 7 days call window with options including 4-hour response or 6-hour Call To Repair
- Comprehensive range of software technical support for Microsoft, Linux, ProLiant Essentials and VMWare-based IT solutions helping to deliver high level of application availability. Response times range from 30 mins for critical problems to 2 hours.
- System Management, Performance Services and Mission Critical Support Solution

HP Care Pack Services include HP branded hardware options qualified for the server, purchased at the same time or afterwards, internal to the enclosure, as well as 22" and smaller external monitors and tower UPS options up to 3KVA. 22" and smaller external monitors will be covered at the same service level and coverage period as the server. For servers or storage systems installed within a rack, service also covers all HP qualified rack options installed within the same rack.

**NOTE:** For more information on HP Care Pack services, contact any of our worldwide sales offices or resellers or visit our worldwide Web site on the internet at: http://www.hp.com/hps/carepack

NOTE: For more information on Software Support offers contact any of our worldwide sales offices or resellers or visit our worldwide Web site on the internet at: http://www.hp.com/hps/software

## Configuration Information - Factory Integrated Models (NA only)

NOTE: HP does not allow factory integration of options into standard models listed above.

Configure-to-order servers must start with a CTO Chassis.

NOTE: This product offering does not support HP Factory Express Server Configuration Level 1.

## Step 1: Base Configuration

Models HP ProLiant DL380G4 Rack Chassis (North America)

371293-405

Factory Integrated Model ships with:

NC7782 Dual Port PCI-X Gigabit Server Adapter (embedded)
Ultra320 Smart Array 6i Controller (integrated on system board)

Three available 64-bit PCI-X slots, including two non-hot plug 100MHz slots and one non-hot-plug

133MHz slot

575 Watt hot plug power supply, CE Mark Compliant.

One Lowline NEMA power cord and One Highline IEC Power cord

5 hot plug fans Rack (2U), (3.5-inch)

# Step 2: Choose Required Options (only one of the following from each list unless otherwise noted)

Processors	Intel X3.2GHz/800-1MB 380G4 FIO BASE	374492-L21
	Intel X3.4GHz/800-1MB 380G4 FIO BASE	311583-L22
	Intel X3.6GHz/800-1MB 380G4 FIO BASE	311584-L22
Base Memory	HP ProLiant 1GB PC2-3200 2x512 FIO BASE	343055-L21
	HP ProLiant 2GB PC2-3200 2x1GB FIO BASE	343056-L21
Optical Drive	HP ProLiant 8/24X Slim DVD Drv FIO BASE	264007-L21
	Slimline CD-RW/DVD-ROM Combo Option Kit	331903-B21
	HP ProLiant Slim CD-ROM FIO BASE	338732-B21
Diskette Drive	Floppy Drive Option Kit	364507-B21

## Step 3: Choose Additional Factory Integratable Options

Controller	BBWC for SA6i PR FIO BASE	346914-L21
Availability Options	HP ProLiant DL380G4 RPS FIO BASE	355892-L21
	HP ProLiant DL380 G3/G4 Red Fan FIO BASE	293048-L21
	SCSI Configuration Kit	364471-B21

## Step 4: Choose Additional Options for Factory Integration

NOTE: For additional options, please refer to the "Options" section below.

NOTE: Some options may n	ot be factory integratable. Please contact your local sales representative for additional information.	
ProLiant DL380 G4 Unique Options	DL380 G4 Redundant Fan Option Kit NOTE: Hot Plug Redundant Fan Option Kit (PN 293048-B21) contains three fans.	293048-B21
	Hot Plug AC Redundant Power Supply Module (NEMA and IEC cords) (NA and Japan)	355892-001
	Hot Plug AC Redundant Power Supply Module (IEC cord) (WW)	355892-B21
	Floppy Drive Option Kit NOTE: Included in high performance models.	364507-B21
	SCSI Configuration Kit NOTE: Kit Includes duplex drive backplane terminator and 2 long SCSI cables.	364471-B21
	PCI-X Hot Plug Riser Cage Option Kit	354676-B21

HP Factory Express	Factory Installation, Racking, and Customization Services	
	Factory Express Server Configuration Level 1	293355-888
	NOTE: Free Installation of HP Options - Installation of HP Options memory, NICs, hard drives, controllers, processors, I/O cards, pre-install standard OEM OS image, and tape drives. Installation fees will apply to all non-HP certified hardware and asset tags.	
	Factory Express Server Configuration Level 2	266326-888
	NOTE: Includes Level 1 Customer Intent of a ProLiant server and options configuration, OS installation, custom image download, IP addressing, network setting, and custom packaging. Customer unique requirements (quick restore creation, cd duplication, test reports, real-time reporting of server MAC address, password, and RILOE). Customer access, validation and control through VPN (price/server).	
	Factory Express Rack Integration Level 3 with 1 - 3 servers or storage enclosures	325736-888
	Factory Express Rack Integration Level 3 with 4 - 9 servers or storage enclosures	232539-888
	Factory Express Rack Integration Level 3 with 10 or more servers or storage enclosures	325735-888
	NOTE: Includes Level 1 Customer Intent of a ProLiant server and options configuration, OS installation, custom image download, IP addressing, network setting, and custom packaging. Customer unique requirements (quick restore creation, cd duplication, test reports, real-time reporting of server MAC address, password, and RILOE). Customer access, validation and control through VPN (price/server).	
	Factory Express Rack Integration Level 4 with 1 - 3 servers or storage enclosures	325734-888
	Factory Express Rack Integration Level 4 with 4 - 9 servers or storage enclosures	232540-888
	Factory Express Rack Integration Level 4 with 10 or more servers or storage enclosures	325733-888
	NOTE: Includes Level 2 Customer Intent plus customer defined cable management and naming convention, customer furnished image download, IP addressing, cluster configurations (SQL, External storage RAID). Quick restore creation, cd duplication, test reports, real-time reporting of server MAC address, password, RILOE). Customer access and validation through VPN (price/rack).

### Memory

NOTE: Memory configurations listed do not apply to "Factory Integrated Models".

#### HP ProLiant Model DL380 Generation 4 (G4) Base (1P) Models

#### Standard Memory

1 GB PC2 3200 DDR2 SDRAM running at 400MHz comes installed (2 x 512-MB SDRAM)

#### Standard Memory Plus Optional Memory

Up to 9-GB memory is available with the optional installation of PC2 3200 Registered DDR2 SDRAM DIMM Memory Option Kit

#### Standard Memory Replaced with Optional Memory

Up to 12-GB of memory is available with the removal of the standard 512-MB of memory and the optional installation of PC2 3200 Registered DDR2 SDRAM DIMM Memory Option Kit

#### NOTE: Chart does not represent all possible memory configurations.

Memory		Slot							
		1	2	3	4	5	6		
Standard	1GB	512MB	512MB	Empty	Empty	Empty	Empty		
Optional	9GB	512MB	512MB	2GB	2GB	2GB	2GB		
Maximum	12GB	2GB	2GB	2GB	2GB	2GB	2GB		

NOTE: In the online spare configuration, the ROM automatically configures the last populated bank as the spare memory. If only banks A and B are populated, bank B is the spare bank. If banks A, B, and C are populated, bank C is the spare bank, Online spare memory is configured through RBSU.

Following are memory options available from HP:

•	1GB of Advanced PC2 PC3200 DDR2 SDRAM DIMM Memor	√ Kit	$(2 \times 512)$	2 MB)
---	--	-------	------------------	-------

343055-B21

• 2GB of Advanced PC2 PC3200 DDR2 SDRAM DIMM Memory Kit (2 x 1024 MB)

343056-B21

• 4GB of Advanced PC2 PC3200 DDR2 SDRAM DIMM Memory Kit (2 x 2048 MB)

343057-B21

## HP ProLiant Model DL380 Generation 4 (G4) High Performance (2P) Model

#### Standard Memory

2 GB PC2 3200 DDR2 SDRAM running at 400MHz comes installed (2 x 1024-MB SDRAM)

### Standard Memory Plus Optional Memory

Up to 10-GB memory is available with the optional installation of PC2 3200 Registered DDR2 SDRAM DIMM Memory Option Kit

#### Standard Memory Replaced with Optional Memory

Up to 12-GB of memory is available with the removal of the standard 512-MB of memory and the optional installation of PC2 3200 Registered DDR2 SDRAM DIMM Memory Option Kit

### NOTE: Chart does not represent all possible memory configurations.

Memory		Slot
